

Environmental Policy

WHITTENS OBJECTIVE

Whittens provides end-to-end construction and life cycle services to the Mining, Infrastructure, Oil & Gas and Defence sectors, across every stage of construction and maintenance projects. We are determined to conduct our operations and activities in a manner that is environmentally responsible and befitting of a good corporate neighbour. We will set achievable objectives, goals and targets to comply with applicable environmental legislation and all other requirements and manage all phases of our business in a manner that minimises the impact of our operations on the environment.

WHITTENS COMMITMENT

Whittens commits to:

- /// Continual improvement and prevention of pollution.
- /// Comply with all legal requirements and establish voluntary commitments to protect the environment.
- /// Promote an awareness of environmental protection associated with the operations amongst all employees and provide appropriate training to those responsible for implementing environmental control measures.
- /// Communicate the content of this policy to all employees and other interested parties.

THE WAY WHITTENS OPERATES

Whittens shall:

- /// Conduct environmental initiatives to minimise pollution and take steps to conserve resources through recycling.
- /// Involve and consult with employees, government authorities, regulatory bodies and customers to identify improved waste disposal solutions.
- /// Ensure all materials are used and applied in an environmentally friendly manner according to manufacturers' specifications.
- /// Regularly communicate our environmental performance with all employees and key stakeholders.
- /// Maintain a commitment to continual improvement and conformance to ISO14001.

All employees, contractors and others working for, or on behalf of Whittens, are required to conform to this policy.
